

Overall Protection

The global changes that cast their shadows over societies have contributed to the creation of an environment with diverse needs, including security needs. Among these needs, the idea of establishing the Overall Protection Center for Security Consultations was strengthened. This center is accredited and licensed to provide all services in accordance with client requirements.

Let's talk!

Message from the President

Security is essential for any
economy or social entity.

For this reason, the country's higher authorities have decided that the private sector should play a supportive role in internal security, providing protection and security for various entities in both the public and private sectors. Likewise, all branches of Overall Security Protection are committed to contributing to the country's growth by offering security services that keep pace with economic development and current security needs. Therefore, we have made it our mission to enter this field, drawing upon our work and academic experience and leveraging these to professionally serve our clients, with Allah's help, relying on both local and international expertise to deliver a product that satisfies our clients and complies with regulatory requirements.

Security Consultant / Awadh Mohammed Bin Naafil

Security Authorities

All branches of Overall Protection have engaged with these accomplishments through the establishment of an integrated security entity aimed at delivering security services with a local vision and international competence.

Company Philosophy:

Our philosophy by which we are working through is

QUALITY:

We provide services that distinguish us from others in terms of quality and standards.

INTEGRITY:

Continuous development of performance and services must be carried out with high professionalism and integrity.

PLANNING:

Our goals can only be achieved through a plan that we must strongly believe in and work diligently toward.
There is no other way to success.

WORKING SMART:

We believe in the saying:
"Those who work hard, work alone.
Those who work smart, work as a team."

www.opcsc.com

Who We Are!

The Overall Protection Group was established in early 2008 under legal licenses issued by the relevant authorities in the Kingdom of Saudi Arabia.

OUR MISSION:

To provide services that meet the highest security standards for our clients in an advanced civil manner that combines flexibility and firmness, making it a benchmark for the security requirements sought by supervisory authorities. We aim to contribute to serving the community and providing professional support for internal security by citizens and the workforce.

We are dedicated to delivering the highest levels of quality in customer service with warmth, friendliness, personal pride, and company spirit.

OUR VISION:

To play a pioneering role in the security field, which we are honored to undertake, surpassing our clients' expectations and reaching an advanced level to compete with global experts in this field.

"Your vision should be something that inspires everyone connected to your project, not just you."

OUR SERVICES

Leave a comment below

INTRODUCTION:

Our company provides comprehensive security guard services covering all security sectors, backed by extensive experience and qualified personnel. We also offer specialized security consultancy aimed at enhancing the efficiency of security systems across various facilities, ensuring the highest levels of protection and safety.

www.opsc.com

Our services:

- **Covering all security sectors.**
- **Security Consulting.**

The center's services cover all aspects of security consulting as follows:

- Conducting security studies for establishments during the initial setup, construction, and overseeing the implementation of security measures within the establishment.
- Providing consultations for the rehabilitation and development of security systems in establishments to align with their specific needs.
- Offering solutions for existing and potential hazards in sites and establishments.
- Training personnel working in establishment security.
- Identifying physical and human security needs.
- Providing advice on security equipment, choosing the best available products and tools.
- Investigating damages resulting from natural or intentional incidents and determining their causes.
- Identifying potential risks after site and establishment nature assessments.
- Collaborating with security authorities to provide solutions and proposals for industrial, commercial, and private establishments.
- Certifying clients after studying and modifying the establishment's plans to ensure the security and safety of the establishment, its surroundings, and workers, both inside and outside the premises.

Studying, evaluating, and overseeing the supply, installation, and maintenance of security equipment such as CCTV, alarm systems, and other security devices.

Security training consultations, identifying appropriate security services for establishments, and overseeing them.

Establishment of specialized information centers for security companies and conducting survey studies.

Conducting security surveys for sites, identifying and analyzing risks, and determining preventive measures.

Our services:

Performance Standards

"We maintain our work standards"

1

Optimal selection of security personnel, including the following:

- Qualifications.
- Age.
- A criminal record check free of prior offenses before hiring.
- Experience and security system

2

Security equipment and guarding services are divided as follows:
Security personnel appearance (uniforms) and (personal behavior).
Diplomacy in dealing with management, employees, and visitors.
Training on the optimal use of security equipment.

3

Site Fortification:

- Equipment of sites in a way that ensures they are fortified to prevent any unauthorized entry. The sites are divided as follows:
- Fencing.
 - Adequate lighting.
 - Access points, including entry/exit gates and emergency exits.
 - Material handling and storage areas (warehouses and workshops).

4

Security Guard Planning:

- Comprehensive security plan.
- Estimating the required number of security guards for the site.
- General reserve of the institution for emergencies at all sites.

5

Organizing Security Guard Operations:

- Security patrols.
- Guard duties in terms of locations, responsibilities, and obligations.

Performance Standards

"We maintain our work standards"

6

(A) Basic Training Programs for Security Guards:

Below is a description of the theoretical and practical training provided by the institution to its employed security guards:

- Introduction to the duties and responsibilities of a security guard.
- Instructions that a security guard must follow while on duty.
- Security patrols, accuracy of observations, and strengthening the security awareness of the guard.
- How to conduct security inspections by the guard.
- Health aspects and safety measures that guards must be aware of.
- Responding to major incidents during security duty.
- How to write reports and notify about different incidents and security issues by the guard.
- Training guards on the instructions and procedures followed inside and outside the facility.
- Training guards on safety and security procedures followed by both parties.
- Training employees on identifying site-specific risk sources.
- Personnel security/registration, identity verification, observation, and surveillance.
- Visitors and how to deal with them.
- Monitoring entry and exit movements.
- Training supervisors and security personnel on the optimal way to handle daily forms and procedures.

Performance Standards

"We maintain our work standards"

6

(B) Security Instructions for Guards Assigned to Security Checkpoints Within the Facility:

- How security guards deal with visitors during their entry and movement within the sites.
- Controlling the movement of incoming and outgoing vehicles, including people or goods.
- Monitoring the various work activities and workers inside the warehouses.
- Patrols to ensure gates are closed and the site is secured after official working hours.
- Familiarity with the official forms used within the facility.

7

Evacuation:

- Developing necessary security plans to execute evacuation procedures of all types in case of emergencies.
- Security equipment and services.

PRODUCTS & SERVICES

"We maintain our work standards"

Comprehensive Cash-in-Transit Protection

"Comprehensive Cash-in-Transit Protection"

Due to the tremendous advancement in financial and banking transactions and the pressing need to support this development from a security perspective particularly in the transportation of cash and valuables to avoid potential risks we at Comprehensive Protection have entered this field, relying on Allah first and then on strategic planning as follows:

First: Vehicles: equipping and manufacturing them with the latest technologies in this field.

Second: Insuring personnel, vehicles, and transported items with partners who have a long-standing history in this field and in insurance coverage.

Third: An exceptional professional team has been selected to carry out these

Services:

Through this outstanding fleet, we are honored to provide the following services:

- Cash transportation.
- Valuables transportation.
- ATM refilling.

Partners of Success

Message From Tem Leader

"The success we have achieved throughout our journey is largely due to your support and encouragement.

I deeply appreciate you and all that I have learned from you."
